Creating a Turnitin Account

How to create a Turnitin Account?

- Send an account request to the Turnitin admin of Pusan National University
  - The email should include your 1) name 2) department 3) e-mail address [*****@pusan.ac.kr]
  - Once done, the admin will send you a notice
- You can also refer to the following link from the library webpage:
Adding a Class

Once you log in, you will be directed to your class page. Click the 'Add Class' button to create a class.
Adding a Class

1) On the 'Create a New Class' page, enter a class name and an enrollment key. The class enrollment key is for your students to enroll in your class. Pick a key that is easy for your students to remember.

2) The end date is the date your class expires. When a class expires, students can no longer submit papers or enroll in the class. The default duration for all classes is 6 months. If you want your class to last longer or shorter, you can change the end date.

3) Click 'Submit' to add the class to your homepage.
Adding a Class

Once you click ‘submit’ button, the Class ID will be generated. Students will use this ID along with the class enrollment password to enroll in your class.
Adding Students

1) Click the class name to add your students

2) Click “Students” tab (this tab only appears after you click the class name)
Adding Students

1) **Add Student**: Enroll a single student – first name, last name, and Email address

2) **Upload Student List**: The student list must be one hundred (100) entries or less. The list must be a Microsoft Word, Microsoft Excel, or plain text (.txt) file. The first name, last name, and Email address for each student must be provided.
Adding Students

As soon as students are added to a class a confirmation Email is sent to the Email address provided.

• If the student has an existing user profile, the confirmation Email contains only notification of the new class enrollment.

• If the Email address used was not for an existing student user in the Turnitin system, the confirmation Email will allow the student to create their password.

New student user profiles that have never logged in are indicated with a pink highlight over the enrollment date to the left of the student name on the student list page.

Adding an Assignment

After adding students, you can create an assignment. You may create an assignment before adding students.

Within your class homepage click on the 'Add Assignment' button to create an assignment.
Adding an Assignment

1) Create a title for the assignment.
2) Set the assignment Start, Due, and Post dates and times.

Allow any file type: For assignments that do not require Originality Reports, you can select Allow any file type.

Post Date: the date that marks and feedback from GradeMark are released to students.

Optional Settings

Select whether you would like text appearing in the bibliography, works cited, or references sections of assignments to be excluded from being checked for matches in the Similarity Index when generating Originality Reports. (Bibliography and quote exclusions)

Select whether you would like text appearing in the quotes of an assignment to be excluded from being checked for matches in the Similarity Index when generating Originality Reports.

The exclude small sources feature works by excluding sources in the source list that are below a set word count or percentage threshold. For example, if the threshold is set to 3%, any 1% or 2% match would be removed from the current report’s source list (Match Overview or All Sources).

Choose whether you would like your students to view the Originality Reports for their submissions to this assignment. This option gives instructors more flexibility and control when creating assignments.

Student papers submitted to the assignment are checked against other institutions' student submissions.
Optional Settings

If you would like to use a rubric to grade the papers submitted to the assignment, you may use the rubric list drop down menu to select a previously created or imported rubric, or you can launch the rubric manager by clicking on the Launch Rubric Manager link and create a new rubric to attach to the assignment.

This feature of assignment creation provides instructors with the option to enable the e-rater grammar and spelling check for all submissions to the assignment. When enabled student submissions receive detailed grammar feedback in GradeMark automatically through the e-rater technology.

Students will be able to get grammar feedback from ETS e-rater as soon as they submit their work if it’s been enabled for the
1) Click on the class in question where the assignment you wish to edit resides.
2) From within the class homepage, locate the assignment. On the far right of the assignment name, click on "More actions" and choose "edit settings."
3) Review your assignment settings. You may scroll down and click on "Optional settings" for additional assignment settings.
4) Once the changes have been made, scroll to the bottom and click on the "submit" button.
The Assignment Inbox

- **Author** – Students who submitted a paper
- **Title** – Title of the paper submitted
- **Similarity** – The overall similarity percentage of the paper in the Turnitin repositories
- **Grade** – A blue pencil icon indicates that a paper is ready to be graded, but has not yet been graded. Once a paper is graded, the point value given to the paper will replace the pencil icon in the grade column.
- **Response** – Indicate whether students have viewed their graded papers or not.
- **File** – Download a copy of the submission as originally uploaded by the student to the assignment
- **Paper ID** – The unique numeric ID number assigned to every submission made to Turnitin. This column contains a dash if no submission was made. The paper ID is also provided to students or instructors when submitting by file upload or copy and paste as part of the digital receipt
- **Date** – The date of a submission.
