What is Mendeley?

Mendeley is free reference management software to support researchers. It can help you:

Manage your references

연구 문헌의 구축과 관리

Read and Annotate PDFs

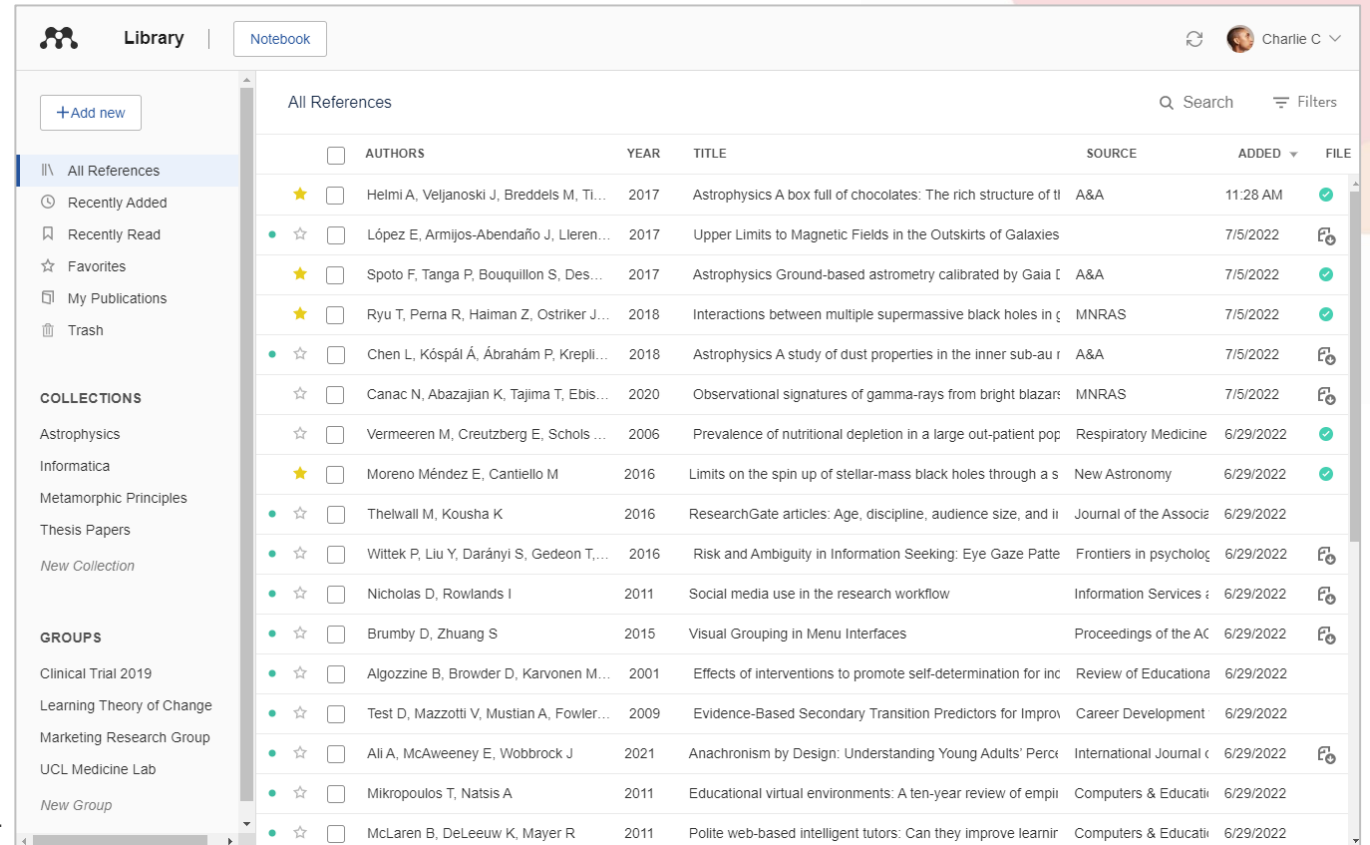

PDF문헌의 열람 및 노트 정리

Cite research while writing

문헌의 인용과 참고문헌 작성

Collaborate

동료연구자들과 연구 논문 공유 및 의견의 실시간 공유

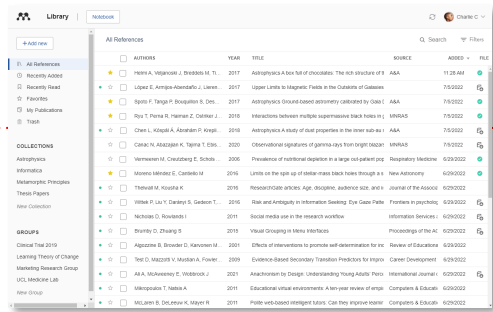

Available for macOS, Windows, Linux and all major browsers

Mendeley's reference management suite

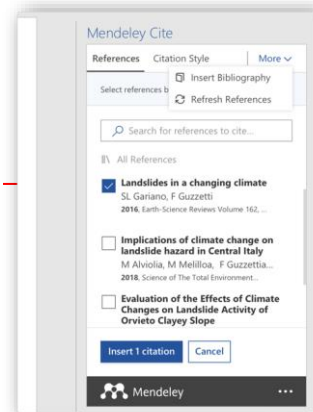

Mendeley Reference Manager

연구 문헌의 저장, 관리, 노트, 공유를 위한 라이브러리 공간

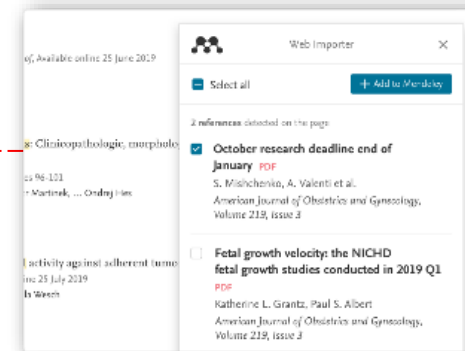

Mendeley Cite

Microsoft® Word 문서 파일과 연동하여 인용 및 참고문헌 생성 툴

Mendeley Web Importer

인터넷 브라우저에 설치하여 웹에서 검색한 논문의 참고문헌 및 원문 파일을 라이브러리에 저장

The screenshot displays the Mendeley Reference Manager interface. At the top, there is a navigation bar with the Mendeley logo, the word "Library", and a "Notebook" tab. On the right side of the top bar, there is a refresh icon, a profile picture, and the name "Charlie C". Below the navigation bar, there is a sidebar on the left with a "+ Add new" button and a list of navigation options: "All References", "Recently Added", "Recently Read", "Favorites", "My Publications", and "Trash". Below these are "COLLECTIONS" (Astrophysics, Informatica, Metamorphic Principles, Thesis Papers, and a "New Collection" link) and "GROUPS" (Clinical Trial 2019, Learning Theory of Change, Marketing Research Group, UCL Medicine Lab, and a "New Group" link). The main area shows a table of "All References" with columns for "AUTHORS", "YEAR", "TITLE", "SOURCE", "ADDED", and "FILE". The table contains 15 rows of reference data, each with a checkbox, a star icon, and a file icon.

The abstract text reads: 'Information foraging connects optimal foraging theory in ecology with how humans search for information. The theory suggests that, following an information scent, the information seeker must optimize the tradeoff between exploration by repeated steps in the search space vs. exploitation, using the resources encountered. We conjecture that this tradeoff characterizes how a user deals with uncertainty and its two aspects, risk and ambiguity in economic theory. Risk is related to the perceived quality of the... The screenshot displays the Mendeley Reference Manager software interface. The main window is titled 'Mendeley Reference Manager' and shows a 'Library' view. On the left, there is a sidebar with navigation options like 'All References', 'Recently Added', and 'Collections'. The central pane shows a list of references with columns for 'AUTHORS', 'YEAR', and 'TITLE'. A specific reference is selected, and its details are shown in the right-hand pane. The details include the title 'Gap dynamics of forest trees: A review with particular attention to boreal', the author 'McCarthy J', and the journal 'Environmental Reviews'. Below the details, there is an 'ABSTRACT' section and a 'TAGS' section. A red circle highlights the 'FILES' section, which shows a file named 'Gapdynamicsreview.pdf' (700.7 KB) has been uploaded. A blue notification box above the file list says '1 file uploaded'.

1. Introduction

Some concepts in the field of HCI are commonly used by practitioners even if a lack of empirical research has prevented their full understanding and impact. User experience (UX) could be one of the fashion and fuzzy terms that is increasingly used even though it has not reached yet regarding its definition. In this initial question the added value of UX is questioned. Its such as usability, ergonomics or user acceptance (Barcellona & Bastien, 2009), some also agree that UX is a "truly extended and distinct perspective on the quality of interactive products" (Hassenzahl, 2008).

Since the 2000s, the concept of UX is widely used but understood in different ways (Law, Roto, Hassenzahl, Vermeeren, & ...)

For more than a decade, User Experience (UX) has grown into a core action (HCI). Practitioners and researchers from a wide range of disciplines have been trying to understand, define, and use the concept, whether a consensus has been reached on this concept or not. In a willing research topic and bring the concept of UX to maturity, a replication study was conducted. The main goal of the present study is to get a better understanding of the points on the notion of UX and to analyze potential evolutions over time. The practical use of the concept. As both practical and theoretical importance for whoever designs interactive systems, the exploratory study is a valuable step toward continual improvement of UX activities. The study was conducted amongst 758 practitioners and researchers from 35 nationalities. It shows that the concept is understood and used throughout the world. Amongst international practitioners were observed according to the geographical location and background.

... be explained by the fact that UX is a combination of fuzzy and dynamic concepts combining several HCI notions. Understanding is an important challenge for HCI as it is moving toward UX measurement and design (Law & Blythe, 2007). As stated by Fenwick & Blythe (2007), "you cannot manage what you cannot measure, and you cannot measure what you cannot define" (p. 14). The UX Manifesto, published in 2007, consisted in answering the question: "What is studying the basic concepts and a good practice? Studies have tried to meet this challenge. Attempts to understand UX have followed different approaches: reviewing UX research, ..."

The screenshot shows the 'Mendeley Cite' application window. At the top, there are tabs for 'References', 'Citation Style' (which is selected and has a red circle '1' next to it), and 'More'. Below the tabs, the 'Current Citation Style' is listed as 'American Psychological Association 7th edition'. There is a 'Change Citation Style' button. A scrollable list of styles is shown, including 'African Journal of Urology', 'American Medical Association 11th edition', 'American Sociological Association 6th edition', and 'Cite Them Right 10th edition - Harvard'. The 'IEEE' style is highlighted with a blue bar and has a red circle '2' next to it. Below the list, there is a search bar containing 'IEEE - HYE JIN KI' and a 'Select another style...' button. At the bottom, there are two buttons: 'Update citation style' (with a red circle '3' next to it) and 'Cancel'.

Mendeley Cite is our brand-new citation tool(Crump & Omura, 2011) which we are continuously developing, with new features and functionality being added regularly.

Help us make sure Mendeley Cite does what you need by giving your feedback using the link from the tab at the bottom-right of the add-in. (Santin et al., 2021)

Mendeley Cite is compatible with Microsoft Office 365, Microsoft Word versions 2016 and above and with the Microsoft Word app for iPad®. If you are using an earlier(Trejo-Gabriel-Galán, 2020) version of Word, you can use the existing Mendeley Citation Plugin for Word available with Mendeley Desktop. Find out more here.(Reza et al., 2021)

The screenshot shows a Microsoft Word document with a citation: "Crump, A., & Omura, S. (2011). Ivermectin: The human use perspective. *Journal of Parasitology*, 101(2), 13–28." A context menu is open over the citation, and the "Remove Content Control" option is highlighted with a red box. A red circle with the number 2 is placed over the "Remove Content Control" option. The menu also includes options like "Cut", "Copy", "Paste Options", "Font...", "Paragraph...", "Search 'Mendeley Cite i...'", "Synonyms", "Translate", "Link", and "New Comment".

The screenshot shows the Mendeley Library interface. The top bar includes the Mendeley logo, 'Library', a 'Notebook' tab, a refresh icon, and the user profile 'Charlie C'. The left sidebar contains navigation options: '+Add new', 'All References', 'Recently Added', 'Recently Read', 'Favorites', 'My Publications', 'Trash', 'COLLECTIONS', 'Astrophysics', 'Informatica', 'Metamorphic Principles', 'Thesis Papers', 'New Collection', and 'GROUPS'. The 'GROUPS' section is highlighted with a yellow box and contains: 'Clinical Trial 2019', 'Learning Theory of Change', 'Marketing Research Group', 'UCL Medicine Lab', and 'New Group'. A red arrow points from the text box on the left to this 'GROUPS' section. The main area displays a table of 'All References' with columns for checkboxes, authors, year, title, source, added date, and file status.

The screenshot displays the Mendeley Desktop interface. On the left, the 'Library' sidebar shows a list of references under 'All References'. The main window shows a PDF document titled 'Implications of climate change on landslide hazard in Central Italy'. A red box highlights the title of the document, and a red arrow points to a callout box that says '공유 논문 열람 시 탭에 [Shared]로 표시' (When viewing shared papers, the tab is marked as [Shared]).

On the right side of the PDF viewer, there is an 'Annotations' panel. It shows a list of annotations from group members: Charlie (04/04/2019), Jean Bruno (21:48), and Thomas (04/04/2019). A red arrow points from a callout box to the annotation by Thomas, which says 'this links to the previous report of 2015'. The callout box text is: '그룹 내 공유된 문헌을 동시에 열람 후 하이라이트와 연구자 노트 기능으로 서로의 의견을 실시간 교환' (Exchange opinions in real-time after simultaneously viewing shared literature in the group using highlights and researcher notes).

ABSTRACT

Coronavirus disease (COVID-19) is caused by SARS-COV2 and represents the causative agent of a potentially fatal disease that is of great global public health concern. Based on the large number of infected people that were exposed to the wet animal market in Wuhan City, China, it is suggested that this is likely the zoonotic origin of COVID-19. Person-to-person transmission of COVID-19 infection led to the isolation of patients that were subsequently administered a variety of treatments. Extensive measures to reduce person-to-person transmission of COVID-19 have been implemented to control the current outbreak. Special attention and efforts to protect or reduce transmission should be applied in susceptible populations including children, health care providers, and elderly people. In this review, we
